

Transcorrelated Jastrow Fitting: Atomization Energies

All figures referenced as [interactive] are hosted at <https://YOURUSER.github.io/tcjastrowfitting/>.

1 Atomization energies

1.1 aug-cc-pVTZ

- Atomization energies and deviations from experiment: [interactive]
- Method discrepancy from SHCI+PBE+CV reference: [interactive]
- Atomization energies, QZ HF correction: [interactive]
- Method discrepancy, QZ HF correction: [interactive]

2 Basis set convergence

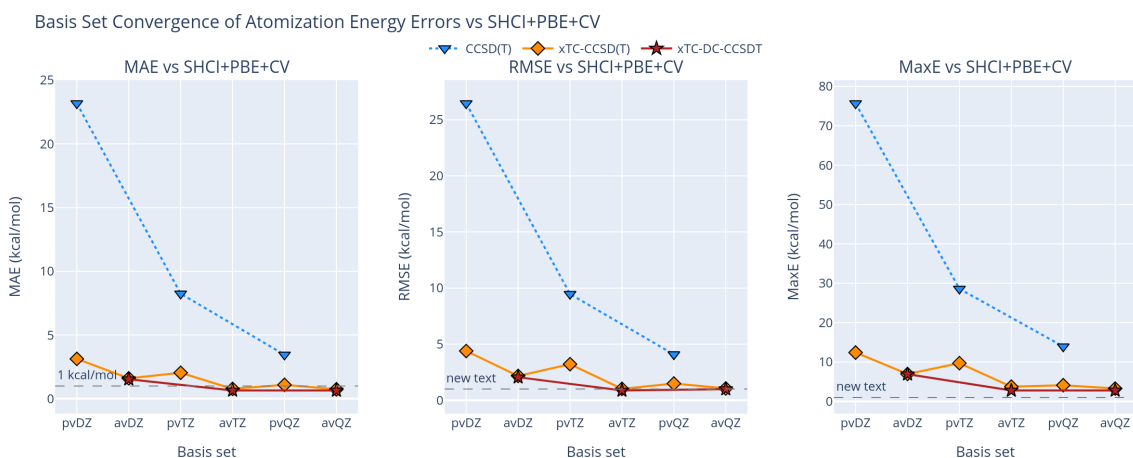

Figure 1: Basis set convergence of atomization energy errors vs SHCI+PBE+CV. [interactive]

A All basis sets

A.1 pvdz

- Atomization energies: [interactive]
- Method discrepancy vs SHCI+PBE+CV: [interactive]

A.2 pvtz

- Atomization energies: [interactive]
- Method discrepancy vs SHCI+PBE+CV: [interactive]

A.3 pvqz

- Atomization energies: [interactive]
- Method discrepancy vs SHCI+PBE+CV: [interactive]

A.4 avdz

- Atomization energies: [interactive]
- Method discrepancy vs SHCI+PBE+CV: [interactive]

A.5 avqz

- Atomization energies: [interactive]
- Method discrepancy vs SHCI+PBE+CV: [interactive]
